We continue to work through the ongoing investigations into allegations around live baiting in this State. Soon, the independent Racing Appeals & Disciplinary Board (RADB) will hear the first of several charges.

The patience of the industry is appreciated during this time. We are unable to provide running commentary on the investigations due to the complex nature of the issues.

The solidarity of the industry is vital and we appreciate the support we are receiving from the industry. We understand the effect this has had on all the good people in greyhound racing and we want our members to know that everything GRV is doing is aimed at preserving the longevity of the sport.

We understand that most of the communications recently have been surrounding ongoing matters. I wanted to provide an update on some of the more positive campaigns and promotions that we at GRV are still running.

The Warrnambool Cup and Classic was a great night with a fantastic crowd of close to 1000 people enjoying the first time 'Rock and Race' concept. Despite the terrible weather the crowd was strong and early indications are that most key metrics in analysing the success of the event are up.

The final Every Greyhound Has a Story photographic essay exhibition wrapped up in Bendigo during May. This award winning exhibition chronicles the unique stories of many people that have adopted greyhounds and is aimed at increasing awareness of the suitability of greyhounds as pets. Attendance at the final regional activation of the gallery was fantastic and GRV

is looking forward to publishing the gallery online in the future. Throughout regional Victoria GRV's message is heard through the AFL Live broadcasts. This is an important promotion because throughout broadcasts of AFL matches greyhound racing is mentioned via the Greyhound Racing Victoria 'Chase of the Year'. This helps regional audiences – and those in metro areas that listen through the AFL app – stay in touch with greyhound racing and keep greyhound racing front of mind. We also continue to be supported by the 'Off The Bench' team of Craig Hutchison, Dr Turf and Liam Pickering on Saturday mornings, especially through the Dr Who quiz. This is a key channel for the promotion of ownership and bringing new people to the sport.

GRV continues to work with clubs to market the sport in local communities to bring people back to the track and with wagering partners to keep greyhound racing front of mind for punters.

In May, we released some communications regarding a Sand Study that was conducted by GRV, Global Turf Solutions and Ground Science. This was a big project and was aimed at increasing the professionalism in our track preparation for the benefit of the greyhound. Greyhound welfare on the track is vital and through this study we have been able to determine the type of surface that is conducive to the best-fit conditions for the greyhound.

The study was comprehensive in its scope and analysed 11 Victorian tracks (Traralgon was undergoing redevelopment and Horsham is due for redevelopment). The comprehensive nature of the study meant that all factors that could affect the performance of the surface was looked at, including: sand type and source, clay content, particle size, the irrigation system, the base structure and the maintenance procedures and machinery/equipment utilised.

The full Sand Study will be released in the coming months and an implementation plan regarding the recommendations will also be developed after consultation with Clubs, GOTBA and track maintenance staff.

The integrity team, in addition to live baiting matters, has continued to focus on the detection of prohibited substance use in Victorian greyhound racing. Swabbing numbers continue to increase including our commitment to conducting more out of competition tests. The integrity section of this edition of the Informer identifies certain statistics in regard to our swabbing regime.

There has been ongoing discussion surrounding the testosterone threshold of 10ng/ml for female greyhounds.

In May, VCAT upheld the decision of the independent RADB in the case of Mr Tony Vass. Mr Vass was convicted of breaches of both GAR83 (1) and GAR 83 (2)(3)(6) and was disqualified for a total of three years as well as receiving a \$1000 fine.

In the media release that was distributed following the case it was mentioned:

VCAT's judgment confirms that the evidence presented by and on behalf of GRV Stewards was thorough and reliable, as were the techniques and methods used by Racing and Analytical Services Limited to provide a basis for the finding that testosterone had been administered to the greyhound. The scientifically proven level of 10ng/ml, as reflecting an unacceptable level of testosterone in a female greyhound, was also vindicated by VCAT.

The full media release is available on the GRV website.

GRV will continue to find and prosecute people that try and gain an unfair advantage in the sport of greyhound racing. We cannot be any clearer; there is a zero tolerance approach to drug use.

I would like to extend my thanks to the industry for their continued resolve. We understand it has been a difficult time. We are all in this together and we all want the same thing; the continual and sustainable success of greyhound racing.

ROCK 'N' RACE AT THE 'BOOL

The Warrnambool Greyhound Racing Club took a major step in entrenching itself as a fundamental component of Warrnambool's May Racing Carnival when the Australian INXS Show rocked Wannan Park on the night it also hosted the finals of the 2015 Warrnambool Cup & Classic finals on May 6.

Complimentary 'Rock 'N' Race' Buses ran from the thoroughbred racetrack after the last race straight to the greyhounds where racegoers danced away to INXS classics like New Sensation, Devil Inside & Never Tear Us Apart.

Despite the show almost being cancelled due to a flood of rain which inevitably led to the performance being moved inside the grandstand instead of the centre of the greyhound track as was originally planned, guitarist Rob Moody said the band had a ball.

"It was really good. It was a nice, intimate show. The people were really into it and made heaps of noise and heaps of fun," he said.

Among the huge crowd were members of other greyhound clubs, who are keen to explore the possibility different entertainment options at their tracks. The band is certainly open to expanding the Rock 'N' Race concept, with Moody stating "we'll play anywhere."

Important changes to Racing and Grading MAY 2015

The following grading guidelines will be removed:

1. The application of the LR28.7 'Associated Greyhound' rule from the Grading Guidelines (1.8) - noting it remains within the Local Rules for re-introduction should it be again deemed necessary;

APPLICABLE: Meetings graded from 1st May 2015 onwards.

2. The \$50K restriction on provincial Mixed 4/5 events within the Grading Guidelines (6.3).

APPLICABLE: Meetings graded from 1st May 2015 onwards.

The following grading guidelines will be added:

1. A weekly 'Ranking Limit' meeting in lieu of a current Tier 3 - with Grade 5's to be Non Penalty events. This will be applied to one provincial meeting per week.

APPLICABLE: Meetings as advertised from 13th May 2015 onwards.

2. Standing Advertised Events at Metropolitan Meetings. (All Distances, Restricted Win and GR5, VICBRED and No City Wins)

APPLICABLE: Meetings as advertised from 13th May 2015 onwards.

3. Weekly 'Ranking Limit' advertised event at both Metro Provincial meetings (MEP & SAP) with the Grade 5's also to be Non Penalty.

APPLICABLE: Meetings as advertised from 13th May 2015 onwards.

4. A 'Reserve right' for the Metro Full Stake meetings;

INTRODUCED: June 2015

5. All Qualifying Meetings will be limited to a maximum of 96 greyhounds with Maiden qualifying events using the 'All Maiden Meeting' selection method giving preference to First Starters, and the remaining greyhounds selected at random. Trainers nominating more than one greyhound should advise the graders via email of any preference for selection. The aim is to simulate race meeting conditions at qualifying meetings.

INTRODUCED: June 2015

6. Graders ability to create a Restricted Win race based on nominations received. This will be at graders discretion and will be used for Greyhounds with 1-6 wins with a focus on Distance racing.

INTRODUCED: July 2015

*'Ranking Limit' event is for greyhounds either currently ranked or exceeding the advertised 'limit' (i.e. a ranking of 250+, 300+ etc) for the event, at the close time of nominations.

IMPORTANT CHANGES TO THE 2015/16 GRV RACING CALENDAR STARTING FROM JULY 2015

In 2015-16 a permanent Friday Day time slot will be introduced. This is a shared time slot and the club hosting the meeting will vary week to week. This slot may also be transferred to the twilight or night from time to time.

The other change is the introduction of the Traralgon Tier 3 meeting into the Monday Twilight time slot. As a result the Geelong Tier 3 meeting will be realigned to Tuesday Twilight. No longer will there be a Sunday Tier 3 Twilight meeting.

Advertised Event Naming

From 1st July 2015, Advertised Events will be named more specifically on the calendar and in the online nomination pages. Advertised events will display:

- What stage they are: eg Heat, Final, Semi Final
- And, if they carry any prize bonuses: eg GOBIS, GDR

The purpose of this change was to reduce the ambiguity about advertised events when looking at the racing calendar.

New Racing Opportunities in 2015/16

- With the introduction of a Friday Day time slot, there will be 22 race meetings conducted in Victoria per week. As a result, there will be up to 264 races per week.
- The Great Chase in 2015 has moved to October, as a feature of the Topgun Carnival at The Meadows. Heats will be run at all Victorian tracks with Semi-Finals and the Grand Final being run at The Meadows. Please note there are some conditional changes to this event.
- Monthly Go Distance Racing (GDR's) bonuses have been added

to selected events held at Sandown Park and The Meadows on their Provincial Stakes meetings.

- Following the introduction of the GRV To The City series in May and June 2015, the series will again return again in October 2015. This series provides opportunity for restricted greyhounds to compete in lucrative Metropolitan finals against similar opposition.
- There has also been regular Ranking Limit Meetings added to the weekly schedule which will be held at Tier 3 meetings as advertised.

RECORD MONTH FOR GREYHOUND ADOPTION PROGRAM

By Rick Durham

Lazy, docile and placid aren't usually character traits associated with bringing up a ton but they're the exact qualities that led to a record 105 greyhounds being adopted in April from the Victorian Greyhound Adoption Program (GAP).

105 is a record number of adoptions for a single month for the program. Greyhounds were adopted into homes across the width and breadth of Victoria with lazy pooches now occupying a couch in regional locations like Echuca, Warragul and Clyde as well as suburban areas such as Northcote, Kew and Brighton East. There was a true cross-section of society that fell in love with greyhounds throughout April.

Year-on-year record set to be broken

Program manager, Larissa Darragh, attributes the record month to the ongoing education of the public about the greyhound's suitability as a family pet and also to new initiatives that bring greyhounds to the people.

"Everyone involved in this program has been working so hard to make it as easy as possible for people to adopt a greyhound," Ms Darragh said.

"We have introduced the concept of 'Adoption Days' and in April we also equalled our record number of

single-day adoptions at one of the days held at The Meadows with 24 greyhounds finding homes.

Single-month record 105 adoptions

"Having so many people embracing greyhounds as a breed is so heart-warming, we have known for a long time how amazing greyhounds are and now everyone else is starting to see it too.

"Last (financial) year we significantly broke the number of adoptions in a year with a record 536 greyhounds finding new homes through the program. This year we are expecting to surpass that number and set a record yet again which is an amazing achievement."

A number of factors have contributed to the increase in adoptions. GAP has streamlined its intake model making it easier for owners and trainers to put their greyhounds into the program. Also, the major redevelopment of the Seymour HQ has been completed, the continual increase in popularity of the program's Facebook page and the 'Adoption Days' are among the contributing factors that have grown the program.

RACING OWNER'S SUPER STORY

By Rick Durham

Racing owners often adopt their greyhounds once their racing careers come to an end and Andrew Duncan had one super ride with his greyhound Clay Bird.

Clay Bird (now named 'Super') raced 118 times throughout his career winning on 18 occasions, placing 18 times and racing at 13 different tracks. It was a huge career that was followed intensely by both Andrew and his son Josh.

Andrew says that Josh watched every one of 'Super's' races and fell in love with the greyhound early on.

"He is more Josh's dog than mine," he said "Josh loved him so much and when his racing career finished I had to convince my brother that Super should come home with us rather than him."

"When he heard that I was picking Super up he begged me to get the day off school and there was no way I couldn't let him come."

Andrew remembers how exciting it was to watch Super throughout his career saying that his come-from-behind racing style was always exciting.

"He had a great career and we're so proud of him.

"He loved and thrived on racing and he definitely provided me with the most fun I've ever had in racing."

There were many memorable moments to savour among Super's 18 victories.

"Every win was memorable but two that stand out were the two at Sandown Park that we got to watch live."

Andrew works full-time in two professions and says that his house is now complete with the addition of Super. At their Box Hill property, there are now two Jack Russel terriers, one greyhound and a budgie.

Super has settled in 'beautifully' according to Andrew and Josh is ecstatic that the racer he admired so much now sleeps on the couch in his house.

Andrew says his experience with Super has been special.

"This is what it's all about, watching your greyhound grow, develop and race is great and having him at home makes it even better."

GREYHOUND ADOPTION PROGRAM

OLIVER

D.O.B: 03/05/2013

Race name: OLIVERT BALE

Oliver is a shy kind of dog who will need a calm, confident owner to help bring him out of his shell. He's not sure on the world, but he tries to please. He wants desperately to fit into this new world but he needs your help. He will enjoy the company of another dog to keep him company during the day, and someone he can learn off. He will need a quiet household with no children. Oliver is NOT cat friendly.

OLIVER IS AVAILABLE FOR ADOPTION IN JULY!

MAGNUM

D.O.B: 06/06/2013

Race name: LONG SHOT DREAM

You can make your long shot dream a reality when you adopt a greyhound, and Magnum could be the perfect one for you! He is very quiet, very good on lead, and very loveable! He would go well in a house with school age children and he might be happy in a home living as an only dog. Magnum is NOT cat friendly.

MAGNUM IS AVAILABLE FOR ADOPTION NOW!

All greyhounds adopted from GAP are desexed, vaccinated, microchipped, wormed, and health checked. During the foster process they quickly and easily make the transition from being a racing animal to pet. Such is the stringent nature of the GAP assessment processes that the Victorian government legislates that greyhounds successfully passing through GAP no longer have to be muzzled in public.
